WAVECAMPER CONVERSION

INTERIOR CONFIGURATIONS

The innovative Wavecamper conversion of the Renault Trafic is characterized by its above-average functionality!

Among others, the characteristic feature is the single rail system armchairs, which allows the interior to be arranged in many ways. It is possible to rearrange the seats, add them or remove them completely. This allows the vehicle to be used practically for many activities, such as a 4-passenger camper with 4 sleeping places or a vehicle for transporting 6 people.

In addition to these important features, the Wavecamper Renault Trafic conversion offers a compressor refrigerator electrical system with an extra battery, complete insulation with upholstered interior trim, a sink with glass lid and integrated folding tap, a folding table behind the driver's seat that can also be used outside the vehicle, and many other amenities. A very important element is the complete top-quality furniture interior made of lightweight plywood with damage-resistant CPL laminate.
